DA 05-771

Released: March 25, 2005

WIRELESS TELECOMMUNICATIONS BUREAU ANNOUNCES THAT APPLICATIONS FOR BROADBAND PERSONAL COMMUNICATIONS SERVICES (PCS) ARE ACCEPTED FOR FILING

Auction Event No. 58

WT Docket No. 05-149

Pleading Cycle Established

Report No. AUC-58 (Auction No. 58)

On February 15, 2005, the Federal Communications Commission completed the auction of 217 Broadband Personal Communications Services ("PCS") licenses.¹ The long-form applications (FCC Form 601) for the PCS licenses listed in Attachment A have been found, upon initial review, accepted for filing.² The Commission may return or dismiss any application if it is found, upon further examination, to be defective or not in conformance with the Commission's rules. See 47 C.F.R. § 1.934(a), (d).

Petitions to deny the applications listed in Attachment A must be filed no later than **April 4, 2005**, ten (10) days after the date of this Public Notice. See 47 C.F.R. § 1.2108(b). Oppositions to a petition to deny must be filed no later than **April 11, 2005**, five (5) business days after the filing date for petitions to deny. See 47 C.F.R. § 1.2108(c). Replies to oppositions must be filed no later than **April 18, 2005**, five (5) business days after the filing date for oppositions. See 47 C.F.R. § 1.2108(c). All pleadings filed regarding C&F Block PCS long-form applications should refer to **WT Docket No. 05-149** and **Report No. AUC-58**, as well as to the specific file number of the individual application.

Under the Commission's current procedures for the submission of filings and other documents,³ submissions in this matter may be filed electronically through the Commission's Electronic Comment and Filing System ("ECFS") or by paper, according to the instructions below.

¹ Broadband PCS Spectrum Auction Closes, Winning Bidders Announced for Auction No. 58, Report No. AUC-05-58-H, *Public Notice*, DA 05-459 (WTB rel. Feb. 18, 2005).

² Attachment A1 contains the same information as Attachment A, sorted by market and block rather than by applicant name.

³ See Implementation of Interim Electronic Filing Procedures for Certain Commission Filings, *Order*, 16 FCC Rcd. 21,483 (2001); see also FCC Announces a New Filing Location for Paper Documents and a New Fax Number for General Correspondence, *Public Notice*, 16 FCC Rcd. 22,165 (2001); Reminder: Filing Locations for Paper Documents and Instructions for Mailing Electronic Media, *Public Notice*, 18 FCC Rcd. 16,705 (2003).

- **If filed by ECFS,⁴** comments shall be sent as an electronic file via the Internet to <http://www.fcc.gov/e-file/ecfs.html>. In completing the transmittal screen, commenters should include their full name, Postal Service mailing address, and the applicable docket number. Parties may also submit an electronic comment by Internet e-mail. To get filing instructions for e-mail comments, commenters should send an e-mail to ecfs@fcc.gov, and should include the following words in the body of the message, "get form <your e-mail address>." A sample form and directions will be sent in reply.
- **If filed by paper,** the original and four copies of each filing must be filed by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although we continue to experience delays in receiving U.S. Postal Service mail). The Commission's contractor, Natek, Inc., will receive hand-delivered or messenger-delivered paper filings for the Commission's Secretary at 236 Massachusetts Avenue, N.E., Suite 110, Washington, D.C. 20002. The filing hours at this location are 8:00 a.m. to 7:00 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes must be disposed of before entering the building. Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743. U.S. Postal Service first-class mail, Express Mail, and Priority Mail should be addressed to 445 12th Street, S.W., Washington, D.C. 20554. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.

One copy of each pleading must be delivered electronically, by e-mail or facsimile, or if delivered as paper copy, by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (according to the procedures set forth above for paper filings), to: (1) the Commission's duplicating contractor, Best Copy and Printing, Inc., at FCC@BCPIWEB.COM or (202) 488-5563 (facsimile); (2) Erin McGrath, Mobility Division, Wireless Telecommunications Bureau, at erin.mcgrath@fcc.gov, or (202) 418-7447 (facsimile); and (3) Michael Connelly, Mobility Division, Wireless Telecommunications Bureau, at michael.connelly@fcc.gov, or (202) 418-7447 (facsimile).

The applications listed in Attachments A and A1 are available to the public for electronic viewing in the Commission's Universal Licensing System ("ULS"). Instructions for obtaining and using ULS are contained in Attachments B and C of this Public Notice.

Any amendments to FCC Form 601 applications must be filed electronically. For technical assistance in using ULS for viewing applications or making amendments to applications, contact the FCC Technical Support Hotline at (202) 414-1250, or JoAnn Epps, at (202) 418-1342. The FCC Technical Support Hotline generally will be available Monday through Friday, from 9 a.m. to 6 p.m. ET. All calls to the FCC Technical Support Hotline are recorded. Questions regarding procedural issues should be directed to Erin McGrath, Michael Connelly, or Nicole Dumangane, at (202) 418-7240.

This Public Notice contains the following attachments:

Attachment A: List of Applications Accepted for Filing – Sorted by Applicant.

⁴ See Electronic Filing of Documents in Rulemaking Proceedings, GC Docket No. 97-113, *Report and Order*, 13 FCC Rcd. 11,322 (1998).

- Attachment A1:** List of Applications Accepted for Filing –Sorted by Market and Channel Block.
- Attachment B:** Instructions for Searching for Applications Listed in Attachments A and A1 Using ULS.
- Attachment C:** Instructions for Accessing the FCC Network Using Windows 95/98.

Attachment B

SEARCH INSTRUCTIONS FOR APPLICATIONS FILED FOR BROADBAND PCS AUCTION # 58

This attachment provides instructions for electronically searching the FCC Network for a specific application or applications on file with the Commission. The following instructions relate specifically to searching for applications filed in response to Auction 58.

To search the FCC Network for an application, you must first connect to the FCC Network. Attachment C describes how Windows 95/98 users can connect to the FCC Network using the Dial-Up Networking features of Windows 95/98.

We recommend that you use Netscape Communicator 4.51, 4.61, or higher (Internet web browser software) to use ULS for application searches. To download the latest version of Netscape Communicator free of charge, access the Netscape download site at <http://home.netscape.com/download/>.

Conventions

The instructions in this attachment use the following typographic conventions:

bold Represents objects on the screen that you click with the mouse pointer, including buttons, Internet links, icon, tabs, menu items (e.g., **Cancel** button, **Auctions** link, **Save** option in the File menu).

italic Represents field names or areas of a screen (e.g., *Licensee Name* field, *Applicant Information* area of a screen).

bold italic Represents characters that you must type exactly as they appear in the instructions. For example, if you are instructed to type ***http://www.fcc.gov***, you should type all of the characters shown in bold italic exactly as they are printed.

SMALL CAPS Represents keys on the keyboard (e.g., ENTER, CTRL, ESC).

Note: Throughout these instructions, "enter" means to type the appropriate information and then press the ENTER key.

Performing an Application Search

Once you have connected to the FCC Network, follow the procedures below to search for an application. *You may click the ? (Help) button at anytime for additional information on using Application Search.*

1. Connect to the FCC Network using one of the following options:

***Note:** If your PC is connected to a network, you must use a secure proxy to access the FCC Network. Consult your Network Administrator.*

Dial-Up Access

- a. Use Dial-Up Networking in Windows 95/98 to connect to the FCC Network (see Attachment D).
- b. Start your web browser. In the location field of the web browser screen, type ***http://wtbwww05.fcc.gov***. Then press the ENTER key.

Internet Access

- a. Start your web browser and connect to the Internet using your Internet Service Provider.
 - b. In the location field of the web browser screen, type ***http://www.fcc.gov/wtb/uls***. Then press the ENTER key.
2. Verify that Java and JavaScript are enabled in your web browser preferences. Additionally, the preferences must specify "Accept all cookies." Refer to your web browser Help facility for more information.
 3. On the Universal Licensing System main page, click the **Application Search** button, located on the left side of the page.

***Note:** Application Search utilizes "cookies". If you are receiving a notification message when accepting a cookie, we recommend that you disable this message in your web browser options. Please consult you web browser Help facility for more information.*

4. Select the type of search by clicking the down arrow in the *Select Search Type* field to obtain a menu containing the following options. Select **General** and click the **Continue** button.

5. The Application Search screen appears. This screen contains several data entry fields used for specifying the criteria for your application search. Specify the search criteria necessary to locate the desired application. Please refer to the following “Basic Guidelines for Specifying Search Criteria” for more information.

If you are searching for an application filed for Auction 58, click **58** in the *Auction ID* field.

Basic Guidelines for Specifying Search Criteria:

- You must specify search criteria in at least one field. You do not have to specify search criteria in all of the search fields. Enter search criteria into as many fields as you wish.
- To specify search criteria in a search field containing a menu of options, click the desired option from the menu. Use the scroll bars to view all options in a menu. You can select multiple options from a menu by pressing the CTRL key while you click the menu options.
- Click **<No Criteria>** to undo a menu selection and search for all options in the menu.
- Click the **Clear** button to reset entries in all of the search fields.
- The Universal Licensing System restricts the number of rows returned in an application search to 3000.

Click the ? (Help) button for a definition of each search field available on the Application Search screen.

6. After you have specified the desired search criteria, click the **Search** button. The system will scan the database for any applications matching the search criteria. The matching application files will be listed on the Search Results screen. The Search Results screen will identify the file number, licensee name, application purpose, application status, radio service code, and receipt date for each application returned in the query.

A message on the Search Results screen will indicate if no matches were found for the specified search criteria. Click the **New Search** button and re-specify search criteria.

7. To view an application, click its file number link. To navigate through the data on the Application screen, use the scroll bar or click the links at the top of the screen. *Click the ? (Help) button for information regarding specific functions available on this screen.*

- To re-access the Search Results screen, click the down arrow end of the *Other Options* field to obtain the drop-down menu of options. Click **Search Results** from the *Other Options* menu and then click the **Go** button.
- To begin a new search, click the down arrow end of the *Other Options* field to obtain the drop-down menu of options. Click **New Search** and then click the **Go** button.

Technical Support

For technical assistance in searching the ULS for applications, contact the FCC Technical Support Hotline at (202) 414-1250 (voice) or (202) 414-1255 (TTY). The FCC Technical Support Hotline is generally available Monday through Friday, from 8 a.m. to 6 p.m. ET. All calls to the FCC Technical Support Hotline are recorded.

Attachment C

ACCESSING THE FCC NETWORK USING WINDOWS 95/98

This attachment describes how to access the FCC Network from a system that is running the Microsoft Windows 95 or Microsoft Windows 98 operating system. This involves configuring dial-up network access and then performing the dial-up procedure.

Conventions

The instructions in this section use the following typographical conventions:

- bold** Represents objects on the screen that you click with the mouse pointer, including buttons, Internet links, icons, tabs, menu items (e.g., **Cancel** button, **Auctions** link, **Save** option in the File menu).
- italic* Represents field names or areas of a screen (e.g., *Applicant* field, *Selected Licenses* area of a screen).
- bold italic*** Represents characters that you must type exactly as they appear in the instructions. For example, if you are instructed to type ***http://wtbwww03.fcc.gov***, you should type all of the characters shown in bold italic exactly as they are printed.

SMALL CAPS Represents keys on the keyboard (e.g., ENTER, CTRL, ESC).

Note: Throughout these instructions, “enter” means to type the appropriate information and then press the ENTER key.

Hardware and Software Requirements

To connect to the FCC Network using Windows 95/98 Dial-Up Networking requires, *at a minimum*, the following hardware and software:

Hardware Requirements

- CPU: Pentium or above
- RAM: 16 MB (more recommended)
- Hard Disk: 33 MB available disk space
- Monitor: VGA or above
- Modem: 28.8 kbps or higher
- Mouse or other pointing device

Software Requirements

- Netscape Communicator 4.51, 4.61, or higher¹.
- Microsoft Windows 95/98

Note: If you are running Windows in a networked environment, check with your local network administrator for any potential conflicts with the Windows 95/98 Dial-Up Networking. This usually includes any TCP/IP installed network protocol.

The Windows 95/98 Dial-Up Networking will establish a direct connection from your PC to the FCC Network. This point-to-point connection is not routed through the Internet.

Configuring Dial-Up Networking

1. To start dial-up networking:
 - a. Click the Windows 95/98 **Start** button.
 - b. Click the **Programs** option to display the Programs menu.
 - c. Click the **Accessories** option to display the Accessories menu.
 - d. In Windows 95, click **Dial-Up Networking**.
In Windows 98, click **Communications**, then **Dial-Up Networking**.

If Dial-Up Networking is not an option on your Accessories menu, you should install it from your Windows 95/98 CD or diskettes.

2. When the Dial-Up Networking window appears, double-click the **Make New Connection** icon.
3. The Make New Connection window appears. In the field entitled *Type a name for the computer you are dialing*, type **ULS at FCC**.
4. In Windows 95, click the down arrow at the right of the *Select a modem* field and select your modem from the menu of available modems.

In Windows 98, click the down arrow at the right of the *Select a device* field and select your modem from the menu of available devices.

If your modem does not appear on this list, you must install your modem driver according to the modem manufacturer installation procedures, which are usually described in your modem's user manual.

5. Click the **Configure** button. Click the **Options** tab at the top of the Properties window.

6. In the *Connection control* area of the **Options** tab, verify that *neither* option is selected. If either option is selected, click the check box at the left of the option to deselect it. Then click the **OK** button.
7. Click the **Next** button.
8. Type **800** in the *Area Code* field and **844-2784** in the *Telephone Number* field. Verify that the correct country is selected in the *Country code* field. If necessary, click the down arrow at the right of the *Country code* field and select the appropriate country from the menu of available countries.
9. Click the **Next** button.
10. Click the **Finish** button. An icon titled **ULS at FCC** appears in the Dial-Up Networking window.
11. Verify that properties are configured correctly before attempting a dial-up session. Position the mouse pointer on the **ULS at FCC** icon and click the *right* mouse button to display a menu. Select **Properties** from the menu.
12. Click the **Server Types** tab at the top of the Properties window.
13. In the *Advanced Options* area, verify that only *Enable software compression* is selected. If it is not selected, click the check box at the left of the option to select it. If either of the other options is selected, click the check box to deselect it.
14. In the *Allowed Network Protocols* area, verify that only *TCP/IP* is selected.

If it is not selected, click the check box at the left of the option to select it. If either of the other options is selected, click the check box to deselect it.
15. Click the **TCP/IP Settings** button and select *Specify name server addresses*.
16. Type **192.104.54.1** as the Primary DNS.
17. Click **OK** on the TCP/IP Settings window and the Server Type window.
18. a. Click the Windows 95/98 *Start* button, then click the *Settings* option to display the Settings menu.

b. Click *Control Panel* and then double-click the *Network* icon.

c. Highlight the TCP/IP Protocol and click *Properties*. If there are multiple TCP/IP protocols, highlight TCP/IP --> Dial-Up Adapter and click *Properties*.

d. Click the *DNS Configuration* tab.

- e. Select *Enable DNS*. Type **bidder** in the *Host* box, type **fcc.gov** in the *Domain* box, then type **192.104.54.1** in the DNS Server Search Order box and click the *Add* button.
- f. Click *OK* on the TCP/IP Properties windows, then click *OK* on the Network windows.
- g. If you are prompted to restart your computer, click *Yes* to restart, then begin the Dial-Up Procedure.

Dial-Up Procedure

1. If the Dial-Up Networking window is not currently open, do the following:
 - a. Click the Windows 95/98 **Start** button.
 - b. Click the **Programs** option to display the Programs menu.
 - c. Click the **Accessories** option to display the Accessories menu.
 - d. In Windows 95, click **Dial-Up Networking**
In Windows 98, click **Communications**, then **Dial-Up Networking**.

The Dial-Up Networking window appears.

2. Double-click the **ULS at FCC** icon in the Dial-Up Networking window.
3. Click the **Connect** button on the window. *Do not enter User name and Password.*

The Connection window appears, indicating the status of your connection as your modem dials into the system. This window must remain running during your dial-up session. You may minimize the window, if you wish.

If your modem fails to establish a connection, please see the *Troubleshooting* section below.

4. Once the connection is established, open your Web browser.
5. In your browser's *Netsite* field, enter ***http://wtbwww05.fcc.gov***.

If nothing appears in your Web browser, please see the *Troubleshooting* section below.

6. When you have finished, exit the Web browser, then click the **Disconnect** button on the Connection window to end your dial-up session.

Troubleshooting

Following are problems you may encounter and possible solutions for resolving or isolating them.

Modem does not respond

1. Confirm that all physical connections for the modem are present.
2. Confirm that the phone line is active by connecting it to a telephone and checking for a dial-tone.
3. Confirm that the correct modem driver is installed for your modem.

Modem dials but does not connect

1. Confirm that the number the modem is dialing is correct.
2. Confirm that the modem prefix, if any, is correct.

Modem dials and connects, but nothing appears when you enter the Netsite in the Web browser

1. Check the settings in your dial-up networking icon, particularly that the *Primary DNS* is **192.104.54.1** and that *TCP/IP* is the only selected protocol.
2. Confirm that your web browser is using no proxies.
3. If you do log into a TCP/IP LAN, confirm that your LAN network IP address is being released. To do so, connect to the FCC Network using dial-up networking, then click the **Start** button in Windows 95/98 and select **Run**. Type **winipcfg** and press **OK**. If your IP address does not begin with "192.104.", then your LAN IP address is not being released. Click the **Release All** button, or consult you LAN administrator.

Receive an Internal Server error in the Web browser

1. Confirm that the address entered in the *Netsite* is correct (***http://wtbwww05.fcc.gov***).
2. Confirm that *JavaScript* is enabled in your Web browser.

Technical Support

For technical assistance with installing or using FCC software, contact the FCC Technical Support Hotline at (202) 414-1250 (voice) or (202) 414-1255 (TTY). The FCC Technical Support Hotline is generally available Monday through Friday, from 8 a.m. to 6 p.m. ET. All calls to the FCC Technical Support Hotline are recorded.

Note: To download the latest version of Netscape Communicator free of charge, access the Netscape download sit at <http://home.netscape.com/download/>.
